

Universal Periodic Review of Indonesia – 13th session

Statement by the Republic of Lebanon

The delegation of Lebanon warmly welcomes the distinguished delegation of Indonesia headed by his Excellency the minister of Foreign Affairs Dr. Marty Natalegawa...

We welcome the efforts deployed by Indonesia to promote the respect for human rights for all its citizens, despite the geographical and population challenges, especially through adopting the third human rights action plan that takes into account human rights and freedoms and that gives due importance to the achievement of the millennium development goals.

We note positively the measures undertaken by the government to ensure better protection for its migrant workers abroad, and we recommend enhancing these efforts.

We also note positively the continuous government commitment to the promotion of dialogue and harmony among the different components of Indonesia's multicultural, multiethnic and multi-religious society. We recommend continuing the support to ethnic and religious tolerance within a diversified society.
