The Netherlands-UPR

Intervention by Canada

Question

Can the Netherlands provide information on when it plans to ratify the UN Convention on the Rights of Persons with Disabilities (CRPD) and Optional Protocol to the CRPD?

Recommendations

Canada recommends that the Kingdom of the Netherlands:

Ensure effective national oversight and evaluation of municipal programs that have been developed to protect the rights enshrined in Article 1 of the Dutch constitution concerning prohibited grounds for discrimination. In particular, to ensure that these programs utilize a broad systematic approach, taking into consideration current fiscal realities.
