*Madam President,*

Viet Nam warmly welcomes the delegation of Romania by H.E. Mr./Mdm. ....and commends the efforts and seriousness of the Romania in preparing her second UPR report, with participation of a large number of national agencies and institutions.

We noted with pleasure that, since her last UPR report in 2008, Romania has achieved remarkable results on a number of important domains in the society, such as legislative and judicial reform, education, health care and gender equality.

*Madam President,*

We therefore recommends that Romania strengthen the achievements in the domains above and that Romania continue to put more priorities and national resources on other important fields of job creation, social security and conscience and religion, with more focus to vulnerable groups of children, women and person with difficulties.

I thank you./.
