Statement by the delegation of Romania on the universal periodic review of the human rights situation in Colombia

Thank you Mr President,

Romania thanks the delegation of Colombia for the presentation on the situation of human rights. We appreciate the openness and transparency of the presentation as well as of the national report submitted to the OHCHR.

Romania congratulates Colombia for the achievements in the last years, in a situation often difficult. We appreciate the work of the authorities in ensuring the improvement of the situation of the children, particularly of the most affected by the conflict.

In this respect, we recommend Colombia to continue to adopt all necessary measures in order to ensure full protection of the children and the enjoyment of all rights by the Colombian children.

Thank you very much.
