

GHANA

STATEMENT AT THE UPR OF CUBA,

Mr. President,

The delegation of Ghana warmly welcomes the distinguished Minister of Foreign Affairs of Cuba and his delegation, and commends Cuba for the comprehensive national report and additional information in their presentation.

Ghana recognises Cuba for her significant contributions to education and health globally despite challenging economic constraints it faces, and encourages Cuba to maintain and improve its health system. Ghana notes the significant achievements since the first Universal periodic review, in particular the efforts being made to advance human rights in the country. Ghana recommends the following:

- 1) To continue to improve its health system and training for health personnel.
- 2) Continue to enhance women's rights and intensify awareness campaigns to combat stereotypes against women.
- 3) Continue to promote and enhance human rights education in the country.

I Thank You
