**Bangladesh statement
on
the UPR of Russian Federation**

Mohammed Nore-Alam

Mr. President,

Bangladesh welcomes the delegation of Russian Federation in the working group of UPR.

We are happy to note the endeavors made by the government of Russian Federation for further enhancing promotion and protection of human rights of its people in last four and half years. We commend the country for becoming a party to CRPD, for actions to guarantee the right to preserve its traditions and culture and actions for protecting the family and children.

Mr. President, in view of the remaining challenges, our recommendation is that the government of Russian Federation,

1. Steps up efforts in the field of international development assistance.
2. Enhances measures to ensure human right to adequate housing, primarily for low-income population groups.
3. Continues efforts for increasing quality of children's education, especially in rural areas.

I thank you Mr. President.
