Bangladesh statement on the UPR of Jordan

I welcome the delegation of Jordan. We have noted with appreciation the National report of Jordan on the human rights situation as presented for review today.

The country has made commendable progress in socio-economic development. Its achievements in different key areas like education where it has achieved 99% enrollment; guaranteeing women's rights, empowerment of women and participation of women; protection of foreign workers are noteworthy. We are happy to note actions taken in line with its commitment under its first cycle of UPR, with regard to Human rights education and training for judicial officials.

Mr. President, the National Report of Jordan has commendably combined the achievements as well as the remaining challenges the country faces in the promotion and protection of human rights. In this context, I would like to recommend that Jordan,

1. Continue its efforts to ensure access to water by improving water services provided; and
2. Continue the constructive cooperation with the Human rights treaty bodies .

Thank you.

Kazi Muntashir Murshed
Second Secretary
