### **Bangladesh statement on the UPR of Mexico**

I welcome the delegation of Mexico.

We commend Mexico's efforts and engagement in the Council with regard to the rights of migrants. We are happy to note that The Migration Act decriminalizes undocumented immigration while guaranteeing inter alia, access to justice, education, health care regardless of migration status.

We are also happy to note the actions taken in line with their commitments within the framework of its first cycle of UPR. However, in this regard, we would also like to request the delegation to shed some light on the actions taken with regard to prohibition of corporal punishment, which was also another undertaking of the delegation during its first cycle of UPR.

Given its commitment to the cause of migrants, we **recommend** Mexico to consider its position with regard to Article 22.4 and Article 76 of the Convention on rights of migrant workers.

Secondly, we **recommend** Mexico to continue the fight against poverty and hunger.

Thank you.
