Statement of the Republic of South Sudan on UPR of the Republic of
Chile 28th January, 2014

Mr. President

South Sudan welcomes the delegation of the Republic of Chile to the UPR and commends Chile for its significant progress achieved in some areas of human rights, in particular, to promote the human rights culture and practices within the national police forces.

We note with appreciation the excellent cooperation between the Chilean police and ICRC and encourage dissemination of promoting human rights culture to other law enforcement institutions. We welcome the step taken by government to establishing the National Human Rights Institution, in accordance to Paris Principles.

My delegation would like to recommend to the Chilean delegation to increase participation of women in decision- making institutions

Finally, we wish to Chile delegation all the best in the second cycle of UPR.

I thank you,
