

UPR of Slovenia
Intervention of the delegation of Romania

We welcome the distinguished Slovenian delegation participating in the second evaluation periodic review of the human rights situations.

We appreciate the way Slovenia approached this process, notably by providing a mid-term report on the situation of implementation of the recommendations accepted in the first cycle.

We also appreciate the ratification of some international instruments relating to human rights and adoption of legislative and policy measures aimed at fighting the trafficking in persons.

We have the following recommendations to Slovenia: to adopt a comprehensive legal framework on the rights of the children aiming also at completely outlawing the violence against children and to ensure a thorough implementation of the anti discrimination legislation in order to prevent and combat the discrimination based on any criteria, notably racial or ethnic.

We thank you Mr. President and we wish Slovenia a successful review.
