Italian intervention

**UPR – Panama
(6 May 2015)**

Gracias Sr. Presidente.

Italia da la bienvenida a la distinguida delegación de Panamá, y le agradece la presentación de su informe nacional.

We welcome Panama's commitment in the promotion and protection of human rights, and the steps taken since the last UPR cycle to implement the recommendations received.

We particularly appreciate the measures mentioned in the national report and meant to address the situation of discrimination against LGBTI people, and we encourage the Authorities to further tackle this issue. We also welcome the development of human rights education programs as a cross-cutting issue in schools.

Italy would like to make three **recommendations** to Panama:

1. Enhance efforts to ensure the protection of children's rights, as outlined in the CRC and its Optional Protocols.
2. Increase the minimum age of marriage and of criminal responsibility in line with international standards.
3. Strengthen the fight against trafficking of human beings and in particular of women, by implementing educational and awareness-raising campaigns and by enhancing support measures available to victims.

Déjenme concluir deseandole a Panamá todo éxito en su EPU.

Gracias.
