

Thank you Mr. President,

The State of Palestine welcomes the delegation of Tanzania and thanks it for the presentation of its national report.

We commend the progress made by Tanzania since the first UPR cycle to further promote and protect the human rights of its people.

Since the first UPR Tanzania had taken various positive measures and initiatives including the launching of The National Human Rights Action Plan 2013-2017 which provides the national framework for the promotion and protection of human rights in the State and here we would like to **recommend the government of Tanzania to accelerate its efforts towards the implementation of the National Plan.**

We have also noted the positive steps taken by Tanzania to improve the quality and to have more access to education however we remain concerned about the inadequacies of the education infrastructure in schools and **we recommend the government to continue its efforts to improve the physical environment of schools including by ensuring appropriate water and sanitation facilities and to ensure the full enrollment of all children in education.**

We wish Tanzania a successful review.

Thank you
